

FIXED SCREEN CINEPERM

MOST ECONOMICAL FIXED SCREEN

Truss Cineperm, First Baptist Church of Glenarden, Upper Marlboro, MD
Dealer: Communications Engineering, Newington, VA., Photography: © First Baptist Church of Glenarden

- Designed to be wall-mounted, suspended from a ceiling, or flown, Cineperm features an economical, fixed screen that is versatile. The value of a fixed screen is the method used to attach the viewing surface to the frame. This flexible screen snaps onto the perimeter frame easily and quickly without tools to create a perfectly flat viewing surface for better image quality. A black vinyl border provides a contemporary, theater-like appearance for the most economical fixed frame projection screen Draper® offers.

Fixed frame projection screens are engineered for easy assembly and to provide a perfectly flat, taut viewing surface.

FEATURES

- Available in larger sizes with a truss-style square tubular aluminum welded perimeter frame. Reinforced in a 6" (15 cm) wide double truss with a 6" (15 cm) vinyl border.
- Fixed screen designed to be wall-mounted or flown. Mounting fasteners not included.
- Tubular aluminum frame finished in silver (standard).
- Snap-on viewing surface has 2" (5 cm) black vinyl borders.

WARRANTY

draperinc.com/warranty.aspx
